

About us

About us

There are a many things to experience in Africa; several world famous attractions like Tanzania safari in Serengeti, Ngorongoro Crater, Selous, Tarangire and Lake Manyara. Kenya safari in Masai Mara, Lake Nakuru, Samburu, Tsavo and Amboseli. Mountain gorillas in Uganda and Rwanda. Yet there are so much more than these highlights. We make tailormade packages and flexibility is important for us. We always try to adopt to the customer and make recommendations to give an exceptional experience.

We want to show you different sides of Africa, not only the standard trip every travel agency can offer. We want to give our clients a taste of the culture, a taste of the food, a taste of the music and hopefully some understanding of how it is to live in the country you are visiting.

We are using custom built land cruisers with pop up sun roof. The safari cars are four wheel drive cars.

We work hard to give you an unforgettable experience. We have 24 hour phone service to serve our customers and ready to help you out if something happens or if you want to have some additional services.

Leton Safari Tours Ltd was founded in 2009 and has since then given service to all clients from Kilimanjaro Safari Agency in Sweden on safaris as well as trekking on Mount Kilimanjaro and Mount Meru.
